

HOLME-NEXT-THE-SEA

NEIGHBOURHOOD PLAN 2016-2036

QUESTIONNAIRE SURVEY RESULTS: RESPONDENTS – MAIN HOMES

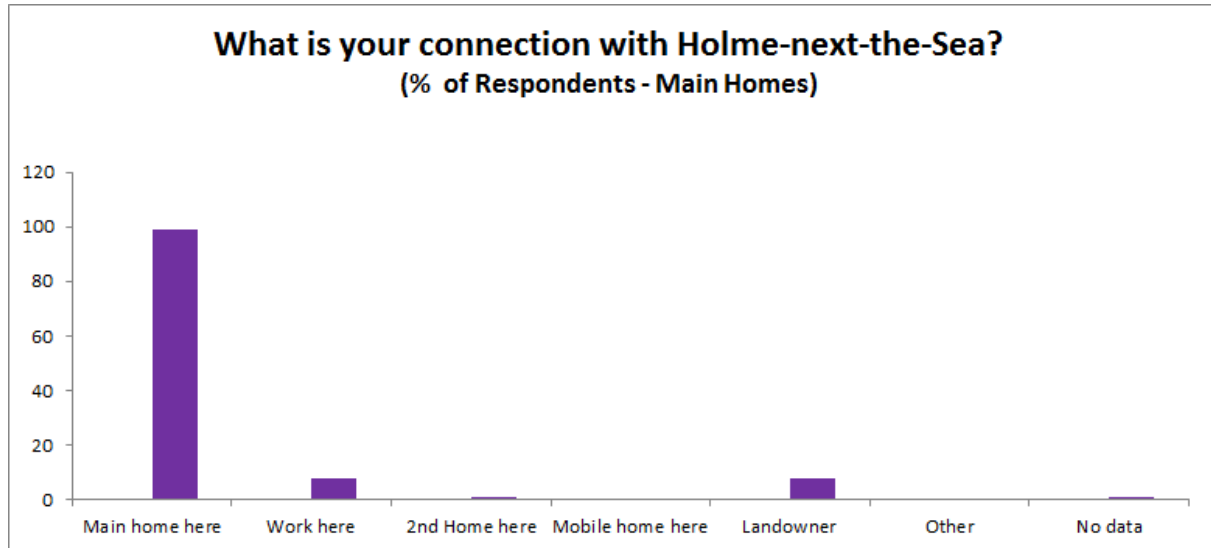

Note on the results of the May 2016 survey

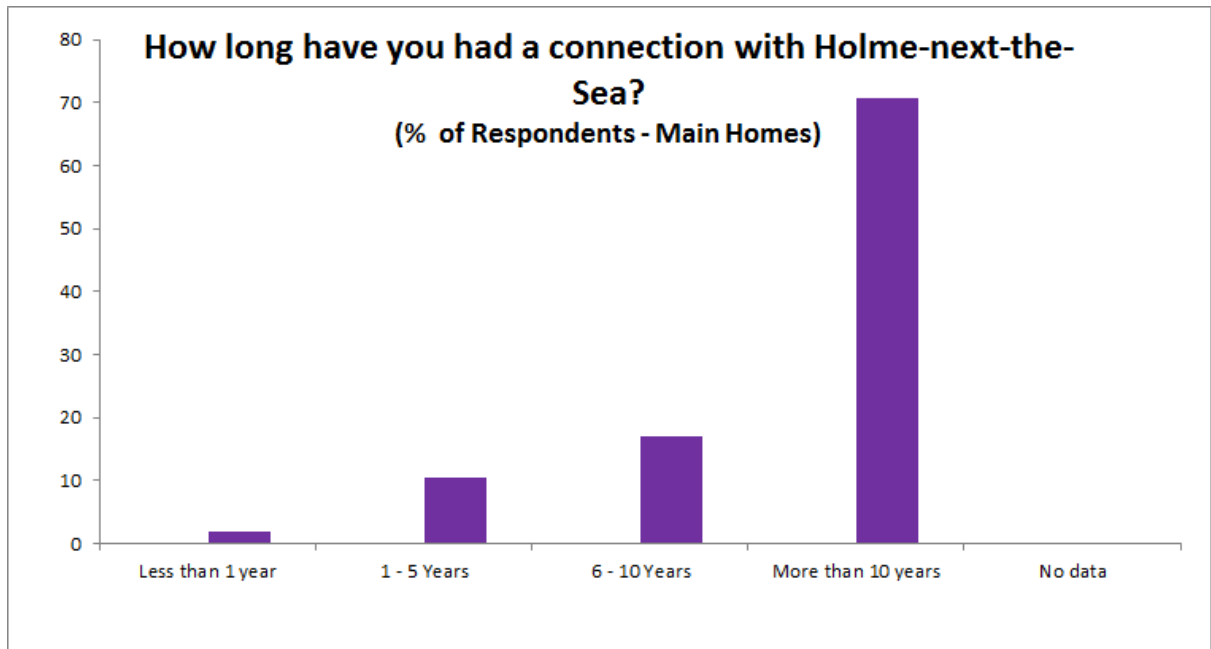

- Around 500 questionnaires were delivered to houses, mobile home sites and landowners/developers known to be connected with the Parish during May 2016.
- 206 completed survey forms were returned – an excellent response rate of more than 40%.
- Of the total 206 respondents, just more than 50% (105) indicated that their main home was in the village. 113 respondents (55%) indicated that they were on the Electoral Register and therefore entitled to vote in the Parish. At the time of the survey there were 213 people on the Electoral Register. For the purposes of understanding any differences in views, it was decided to first separate out the response of those who said they viewed the village as their main home.
- The graphs which follow summarise results from the quantitative analysis for these 105 respondents. They follow the format of the original survey with each graph preceded by the question on which it is based. All bar charts are based on the total number of replies received (ie 105).
- Comparable quantitative results for all respondents and second homeowners are presented in separate reports.
- Free text responses, presenting respondents own comments and suggestions are combined into a further individual report.
